Other info

I will be planning a field trip to my sheep farm during one of the class days. A date will be chosen in September and dependent on the weather. Participants will learn about types of wool and meet some different sheep breeds. My husband also agreed to shear a few sheep that day. Instead of meeting at the Art Center, the class will meet at the farm.

Directions will be provided during class time a week in advance. If possible, I would like to tour of the woolen mill, but it has not yet been confirmed.
